EXPERIENCE

ABB High Voltage Products, Mt. Pleasant, PA — *Engineering Intern*

May 2017 - August 2017

- Firmware regression testing of high voltage circuit breaker monitoring hardware.
- Assisted in the building and testing of an inverter for power quality filters.
- Assembled a fiber optic switch interface for remote circuit breaker operation testing.

CURRENT, Knoxville, TN — *Research Assistant*

January 2017 - Present

- Broadening my knowledge and understanding in the field of electrical engineering.
- Working under Dr. Chien-fei Chen researching power systems and demand response.

EDUCATION

University of Tennessee, Knoxville, TN — *Electrical Engineering*

August 2016 - May 2020

GPA: 3.92/4.00

ACTIVITIES

- Tickle College of Engineering Engineering Ambassador
- Robotics Club Team Member
- IEEE Member

SKILLS

- Soldering
- Regression Testing
- C++
- Altium
- PLECS
