

Chien-fei Chen, Ph.D.

508 Min H. Kao Building, 1520 Middle Dr. Knoxville, TN 37996

Tel: (865) 974-3787

E-mail: cchen26@utk.edu

Updated October 2016

Current Position

Director of Education and Diversity Program

Research Assistant Professor

NSF-DOE Engineering Research Center, Center for Ultra-wide-area Resilient Electrical Energy Transmission Networks (CURENT), University of Tennessee, Knoxville, UTK

Adjunct Research Assistant Professor

Department of Sociology, UTK

Education

Ph.D.	2009	Sociology, Washington State University (WSU) Dissertation: <i>"Mechanism, Transmission and Enforcement of Social Norms: A Study of College Students' Drinking Behavior"</i>
M.A.	1995	Mass Communication (Major: Broadcasting & Intercultural Communication), WSU Thesis: <i>"The Impact of American Media and Interpersonal Communication on the Acculturation Process of Taiwanese Immigrants in the United States"</i>
B.A.	1992	Foreign Language and Literature (Major: English; Minor: Japanese), National Cheng Kung University, Taiwan

Previous Academic Appointments

2009-2010	Research Scientist, Dept. of Electrical Engineering & Computer Science, Virginia Tech
2008-2009	Lecturer, Dept. of Communication Studies, UTK
2002-2003	Lab Manager, Lab for the Study of Cognitive, Emotion and Communication, WSU

Media and Public Relations Industry Experience

1998 - 2001	Producer and Program Planner, Public Television Service (PTS), Taiwan
1998	News Writer & Program Planner, SET Television Station, Taipei, Taiwan

1998 Campaign Manager, Vision Communication Public Relation Company,
Taipei, Taiwan

1997 Writer & Producer, Chinese Television Station, Taipei, Taiwan
Production Assistant (internship), KCTS-Seattle Public Television,
WA

1996 Producer and Director, Seattle Chinese Television Station, WA

1995 Associate Producer (internship), KSPS - Spokane Public Station, WA

Research Focus

Social Psychology, Environmental Sociology, Quantitative Research Methods,
Interdisciplinary Research on Energy Behaviors, and Engineering Education

Journal Publications Under Revision or Review

- [1] Chen, C.-F., Xu, X., & Day, J. (Accept with revision). Comfort needs or money saving?: Exploring determinants of low-income households' intention to conserve energy. *Energy Research and Social Science*.
- [2] Xu, X., Maki, A., Chen, C.-F. Dong, B., & Day, J. (Accept with revision). Predicting workplace energy-saving intentions and communication: An application of the attitude-behavior-condition model. Special issue on Energy Consumption in Buildings: interdisciplinary approaches. *Energy Research and Social Science*.
- [3] Cooksey, C., Brandi Upton, B., & Chen, C.-F. (Accept with revision). Incorporating energy-efficient technologies throughout the life cycle of buildings: Strategies for overcoming barriers. *Energy Research and Social Science*.

Journal Publications

- [1] Chen, C.-F., Xu, X., & Arpan, L. (2017, In press). Between the technology acceptance model and sustainable energy technology acceptance model: Investigating smart meter acceptance in the United States. *Energy Research and Social Science*.

- [23] Chen, C.-F., Bolls, P., Bemker, V., Schmidt, N., and Harbor, A. (2004, May). The effects of audio-video redundancy and emotional valence on the allocation of attention to audio and visual processing. Presented at the Annual meeting of *ICA*, New Orleans, LA.

Grants and Awards

- | | |
|-------------|--|
| 2015 | Co-PI, "Collaborative Research: CRISP Type 2: Revolution through Evolution: A Controls Approach to Improve How Society Interacts with Electricity " (PI: Andrea Mammoli), National Science Foundation (NSF), CNS 1541117 9/15/15-9/14/18 (\$2,499,801). |
| 2016 | PI, Research Experiences for Undergraduate Supplement Grant for "Collaborative Research: CRISP Type 2: Revolution through Evolution: A Controls Approach to Improve How Society Interacts with Electricity", NSF, CNS 1541117 8/1/16-7/31/17 (\$15,683). |
| 2013-2016 | Co-PI, Research Experience for Veterans Supplement Grant (PI: Kevin Tomsovic), NSF 08/1/2014-7/31/2018 (\$50,000). |
| 2012 | Co-PI, "Collaborative Research: Design, Analysis and Implementation of Social Interactions in Cognitive Radio Networks," (PI: Husheng Li), NSF CNS1247834, 09/01/2013-8/31/2016 (\$247,010). |
| 2011 | PI, "Social-psychological Factors of Energy Saving, Public Acceptance of Smart Meter, Demand Response Programs and Renewable Energy Technology," NSF EEC-1041877, 08/15/2011-08/15/2016 (\$300,000). |
| 2008 | PI, "Persuasive Power in Norms: Under What Conditions will Norms Work" Alcohol and Drug Abuse Research Program Pilot Grant (\$10,895), 2008-2009, WSU. |
| 2005 & 2007 | Gordon D. & Izola P. Morgan Graduate Fellowship, Sociology, WSU |
| 2003 | Graduate and Professional Student Association Travel Grants, WSU |

Teaching Experience

- | | |
|-----------|---|
| 2008 | Lecturer, Department of Communication Studies, UTK
Course: Health Communication Research and Health Campaign |
| 2007 | Teaching Assistant, Department of Sociology, WSU
Course: Introduction to Sociology |
| 2003-2005 | Teaching Assistant, Department of Sociology, WSU |

Course: Introduction to Statistical Analysis

2002-2003 Teaching Assistant, Edward R. Murrow School of Communication, WSU
Course: Introduction to Communication Theory

1990-1992 Instructor, Chinese Language Center
National Cheng Kung University, Taiwan

Invited Talks

2016 Social-Psychological Factors in the Interdisciplinary Research of Demand Response and Renewable Energy Technology. Presented for GEIRI North America (part of State Grid, China) (July 28th).

Beyond Technology: Why Social-Psychological Factors are Important in the Interdisciplinary Research of Energy and Technology. Presented for ACROSS Research Center, Waseda University, Japan (April 25th), Department of Electrical Engineering at National Sun Yet Sen University, (May 3rd), Taiwan, Department of Electrical Engineering at SouthEast University, China (May 13th), and NARI, Nanjing, China (May 16th).

Exploring the Relationship between Social-psychological Factors and Residential Demand Response Programs. Presented for the Center of iNnovation and Synergy for Intelligent Home and living Technology (INSIGHT), Taiwan University (May 5th).

The Importance of Environmental Sociology and Survey Methodology to Occupant Behavior Research. Department of Building Science, Tsinghua University, China (May 18th).

2015 Social Psychological Approaches to Analyze Demand Response and Promote Energy Efficiency. Keynote speaker for the joint workshop of US NSF CURENT and Japan ACROSS on Distributed Energy Management System, Waseda University, Japan (December 10th).

Social-psychological Analysis of Residential Energy Behaviors and Customer Segmentation. Presented to the Center of iNnovation and Synergy for Intelligent Home and living Technology (INSIGHT), Taiwan University (July 21st).

Environmental Psychology and Improving Energy Efficiency through Social-Psychological Approaches. Presented to Department of Electrical Engineering and Computer Science and School of Architecture, Tsinghua University, Beijing (July 6th); and the Department of Mechanical Engineering and Environmental Science, Nanjing Normal University (July

7th), and the Department of Electrical Engineering, SouthEast University, Nanjing, China (July 8th).

Beyond Technology: Enhancing Energy Efficiency through Social Psychological Approaches in Public Domain. Presented to the International Energy Agency (IEA), Energy in Buildings and Communities (EBC) Annex 66, Lawrence Berkeley National Laboratory (March 30th).

2014 Social-psychological Approaches to Energy Saving. Presented to the NSF RCN-SEES: Predictive Modeling Network for Sustainable Human-Building Ecosystems (May 26th).

Presenter at the NSF Division of Engineering Education and Centers, Engineering Directorate, Engineering Education PI Awardees' Meeting (September 29-30th).

2013 Social-psychological Factors Relating to the Acceptance of Smart Meter. Presented to Vanderbilt Institute for Energy & Environment, Vanderbilt University (October 30th).

Collaborative Research: Design, Analysis and Implementation of Social Interactions in Cognitive Radio Networks. Presented to the NSF Enhancing Access to the Radio Spectrum (ERAS) Program Workshop (October 6th).

Promoting Engineering Education to Women. Presented to Federal Bureau of Investigation (FBI), Knoxville (April 3rd).

Approaches to University Education Diversity Programs. Presented to the NSF Engineering Research Center Annual Meeting (October 20th).

2010 Social-psychological Factors and Energy Issues. Presented to the Department of Electrical Engineering, Southeast University, Nanjing, China (May 20th).

2009 Mechanism, Transmission and Enforcement of Social Norms in Health Decision-Making. Presented to the Department of Sociology, UTK (October 29th).

Service

- Lead for Sustainability Education Program for the NSF RCN-SEES: Predictive Modeling Network for Sustainable Human-Building Ecosystems (SHBE)
- NSF RCN Workshop Chair for the "Enhancing Interdisciplinary Education and Diversity" for Predictive Modeling Network for Sustainable Human-building Ecosystems (SHBE) funded by NSF Research Coordination Network (RCN) in Science,

Engineering and Education for Sustainability (SEES) program September 30th-October 1st, 2016

- Lead of Social-psychological Modeling Task for the International Energy Agency (IEA), Energy in Buildings and Communities (EBC) Annex 66: Definition and Simulation of Occupant Behavior in Buildings
- Committee member of the interdisciplinary research task of occupant behavior model for the American Society of Heating and Air-Conditioning Engineers (ASHRAE).
- NSF reverse site visit reviewer for the Partnership International Research and Education (PIRE) Program
- Co-moderator for the Education and Diversity Program Orientation, NSF Engineering Research Center Annual Meeting, November 14-16th, 2012
- Search committee for assistant professors from the Department of Teaching and Learning, UTK, 2012
- Led a group of five undergraduate and graduate students from the department of EECS, UTK on research and academic exchange visit to Tsinghua, Southeast, and North Electric Power Universities and several utility companies in China
- Supervisor of CURENT student leadership council
- Responsible for various university and K-12 engineering education and diversity outreach, curriculum design, and proposal writing: including supervising research experience for undergraduate program (REU), designing engineering education assessment strategies, and professional trainings for graduate and undergraduate students; design and supervise middle school engineering programs, girl-only summer STEM program, young scholar program (for high school students), K-8 Family Engineering Night, and STEM education curriculum development at local k-12 schools to encourage community's broader involvement in STEM education, particularly in the areas schools with economic disadvantages
- Promote diversity in the STEM fields for both universities and K-12 students, including encouraging women, minority, veterans, people with disabilities and lower-social economic background and so on

Advising Experience

- Post-doctoral researcher, serving as a major adviser
Dr. Xiaojing Xu, research projects relating to energy conservation behaviors, public acceptance of renewable technology, "Social Impact of Power Grid Technology and Energy Conservation Behaviors." CURENT, UTK
- M.S. and Ph.D. students serving as adviser for NSF-funded research projects for the departments of sociology and psychology, UTK
 1. Wenna Zhao. Energy saving behaviors and environmental impact (2012-2014).
 2. Julie Shelton. Energy conservation behaviors, climate change and public acceptance of renewable energy technology (2013).
 3. Yifan Jiang. Public acceptance of communication and grid technology (2013).
 4. Summer Liu. Assessment for engineering education (2012-2014).

- Ph.D. students serving as committee member for the department of EECS, UTK
 1. Jiahui Guo. (July 2016). Data analytics and application developments based on synchrophasor measurements (Chair: Yilu Liu).
 2. Jidong Chai. (June 2016). Wide-area measurement-based applications for power system monitoring and dynamic modeling (Chair: Yilu Liu).
 3. Yin Lei. (August 2015). Wide-Area synchrophasor measurement applications and power system dynamic modeling (Chair: Yilu Liu).
 4. Qinran Hu. (July 2015). Incentive based residential load aggression (Chair: Fran Li).
 5. Lingwei Zhan. (June 2014). Accuracy and stability improvement of synchrophasor measurements (Chair: Yilu Liu).

- Undergraduate students in social science fields, serving as adviser for NSF-funded research projects
 1. Kayla Stover (sociology). Survey methodology and energy saving behaviors (2012).
 2. Luke Waring (sociology): Power transmission infrastructure and environmental impact at the community level (2013).
 3. Erica Davis (sociology): Energy demand response and social psychological factors (Fall 2015-Summer 2016).
 4. Jackson Lanier (sociology): Energy behaviors, public good and occupant behaviors in commercial buildings (Fall 2015-Fall 2016).
 5. Jacqueline Adams (psychology): Occupant behavior and energy saving in commercial building in multi-country context (Fall 2015- Summer 2016)
 6. Alyssa Loveday (psychology) (August 2016-present): Social-psychological factors affecting smart home management system and demand response, a cross-country comparison.

- Undergraduate students in engineering fields serving as adviser for NSF-funded research projects:
 1. Candice Patton (electrical engineering): incentives and demand response programs (Fall, 2013-Summer, 2014).
 2. Taylor Woodward (industry engineering) and Diane Garcia (electrical engineering): Public acceptance of smart home management system (Spring 2016).
 3. Adam Foshie (electrical engineering): Data acquisition and analysis for residential probabilistic demand response modeling (May-August, 2016).
 4. Faiza Islam (industry engineering): Social-psychological factors and residential demand response programs.
